## **Ear-nose-throat doctor's appointment**

An otolaryngologist deals with the diagnosis and treatment of ear, nose and throat diseases in adults and children. We conduct research and offer help in rehabilitation issues as well

A referral from a family or specialist doctor is required for the examination! You can also get apaid examination without a referral and with a shorter waiting time.

You can also consult with a laryngologist through e-consultation by a family doctor or specialist. We will respond to the e-consultation within a maximum of four working days. If it is determined based on the e-consultation that the patient needs a specialist appointment, we will contact the patient ourselves and arrange an appointment

## **Appointments can be booked:**
