Central Laboratory

The central laboratory's field of activity includes both routine and more specific analyses. Tumor markers, allergy, autoantibodies and immunodeficiency studies are among others. Our central laboratory has modern and high-quality equipment, competent and trained personnel and ISO 15189 accreditation (accreditation certificate No. M007) in accordance with international standards. Laboratory doctors provide both family and specialist doctors with support for the feasibility of ordering and interpretation of tests. The laboratory performs nearly two million analyzes a year. The sample material is mostly blood.

Services

Diabetes screening test (glycohaemoglobin)

Diabetes screening test (glucose)
