Access for People with Mobility Impairments

Parking:
There are designated parking spaces for people with mobility impairments near the main entrance. It is also possible to park in other available spaces by validating the ticket at the reception.

Building Entry:
There is a ramp and automatic doors at the main entrance.
All floors are equipped with elevators to ensure convenient movement.

Assistance:
Wheelchairs can be borrowed from the reception desk in Building D of the health center upon presenting a valid document.
If needed, assistance can be requested from the building staff.

Movement Inside the Building:
All departments are accessible via elevators and marked corridors.

Magdaleena Health Centre

Magdaleena Health Centre was opened on May 30, 2023. The goal of the project “Building a Primary Care Health Centre” was renovating the D-wing of the Magdaleena unit of East Tallinn Central Hospital, in order to guarantee the accessibility and variety of primary care health services in the service area, to decrease health-related inequalities and promote social inclusion.

As a result of the project, the area of 3,240.7 m2 was renovated, extra room was found at the expense of a patio that was turned into atriums filled with light.

During the renovation process, all the windows were replaced, the outer walls and the roof were insulated, the elevator was installed, the ramps were built, and the heating, ventilation and electricity systems were renewed. The renovation works lasted for 1.5 years.

The cost of the project 8.4 million euros were invested into the renovation process, of which 1 786 043 EUR was funded by the European Regional Development Fund.

Time for project implementation: 01 October 2015–30 June 2023.

Co-financed by the European Union.
