Seasonal vaccination

Vaccination against influenza

Protect yourself and others – get vaccinated!

Vaccination takes place:

- At the Tõnismäe polyclinic on **Mon–Fri from 8.00–16.00, office TP0203**

Pre-registration via [the Health Portal](#) or by calling 666 1900 is required

The price of one dose is **EUR 18** (see [Price list of paid services](#))

We use the [Vaxigrip Tetra vaccine](#).

Free vaccination:

- for people over 60 years old
- for children aged 6 months to 7 years (including);
- for pregnant women

We use the [Influvac Tetra SPC vaccine](#).

For more information on influenza vaccination, [visit the Vaccination.ee website](#).

Vaccination against COVID-19

As of 1 September 2024, **free COVID-19 vaccination is only guaranteed for at-risk groups**, which include: people aged 60+, pregnant women, people in general and special care (round-the-clock and community living) services. You can check whether you belong to a risk group [on the Vaccination.ee website](#). The risk group also includes health care workers, staff working in institutions providing 24-hour general care, 24-hour special care and community living services outside the home. **COVID-19 vaccination is not prescribed for people outside the risk group.**

Vaccination takes place:

- At the Tõnismäe Outpatient Clinic on **Mon, Tue, Thu, in office TP0203**

Pre-registration via [the Health Portal](#) or by calling 666 1900 is required
