Outpatient appointment with an oncologist

This is a service in which an oncologist diagnoses, treats, monitors and consults patients with a malignant tumour.

The oncologist mainly arranges systematic treatment of the tumour using chemotherapy or combinations with other medication groups: targeted therapy, hormone therapy, immunotherapy.

A referral from your family physician or specialist physician is needed to book an appointment.

Appointments can be booked:

- Health Portal https://www.terviseportaal.ee/en/
- by phone 666 1900 **Mon-Fri 7:30-18:00**
- at the reception
