

Spinal surgeon's appointment

A spinal surgeon is a doctor with special training, who is focused on the treatment of spine pathologies in adults and children.

You can book an appointment with a spinal surgeon with a referral letter to an orthopaedist. Children's spinal pathologies are handled by Dr. Tiit Härma. The spinal surgeon meets with patients within the Magdaleena unit.

It is also possible to come to a fee-based spinal surgeon's appointment outside the general queue.
