# Spinal surgery nurse's appointment

**The nurse specializing in spinal surgery counsels patients at the center before and, if necessary, after the operation.**

- Assessment of overall health status, including clarification of daily medication intake and identification of concomitant diseases
- Issuance of referrals for analyses and examinations
- Counseling on preparation for surgery and the post-operative period
- Assessment of wound condition and wound care, including removal of sutures if necessary

**Patients are referred to the nurse specializing in spinal surgery by our hospital's spinal surgeon for consultation.**
