

# Spinal surgery nurse's appointment

A spinal surgery nurse is a specially trained health care worker, who specifically focuses on spinal pathologies. You can book an appointment with a spinal surgery nurse with a specialist's referral letter. The appointment takes place on Ravi Street.

Activities at the spinal surgery nurse's appointment:

- instructions for the administration of medication prescribed by a doctor (antibiotics, blood thinners);
- collection of test material determined by the doctor (microbiology) and referring to tests and ECG preoperatively;
- removal of sutures;
- counselling. Preoperative introduction of the department to the patient. Completing necessary documents and reviewing them with the patient;
- finding a solution for postoperative recovery period together with the patient. Sharing instructions for more effective recovery.
