Physiotherapy for patients with vertigo

The ‘Physiotherapy for patients with vertigo’ service is intended for people with balance disorders and/or dizziness.

Patients who have undergone consultation with an ear, nose and throat doctor, neurologist, occupational health doctor and other specialists, and need balance rehabilitation to alleviate complaints, can be referred to the service.

The service takes place in the form of group therapy at the Magdaleena unit (Pärnu mnt 104).

The price of the service is EUR 13 for a 30-minute session, and EUR 26 for an hour-long session.

The patient is referred to physiotherapy by an ear-nose-throat doctor or balance nurse.
