## Wound care nurse's appointment

**Patients who need wound care (surgical wounds, different ulcers, etc.) and their loved ones are welcome at the wound care nurse's appointment.**

At the wound care nurse's appointment:

- we will assess and perform wound care for surgical and traumatic wounds;
- advise and teach the patient and/or their loved ones to cope with chronic ulcers;
- talk about wound care and the special features of hygiene at home;
- recommend suitable wound care products and instruct their use.
