Emergency eye treatment

We provide care for acute eye diseases.

The ophthalmologist's working hours are 8:00-20:00 Mon-Fri and 9:00-20:00 Sat-Fri At other times emergency care is provided by EMC doctor.

Visit ophthalmologist at the Emergency Medicine Centre if you have:

- eye trauma
- an eye injury from corrosive substances
- an eye burn
- a sudden change in vision
- a sudden change in vision less than 1 month after eye surgery

Do not turn to the emergency department for an ophthalmologist's consultation if you have:

- conjunctivitis
- dryness, stinging and/or itching of the eyes
- inflammation of the eyelids (blepharitis)
- blockage of the eyelid sebaceous gland (hordeolum) or bacterial inflammation of the eyelash follicle (chalazion)
- Subconjunctival hemorrhage (broken blood vessel) in the eye

In those cases, please contact your family doctor for help.
